EXPERIENCE

SAP Specialist

Armtek 📅 06/2018 - Present

🔗 https://armtek.ru/?lang=en

- Provided second-line technical support for SAP in SD and MM modules, e-store support and API requests.
- Responded to user requests, troubleshooting and resolving issues, providing necessary access, and offering consultation on web requests.
- Configured system settings for new commercial objects and ensured replication of solutions to other retail facilities.
- Developed user instructions and regulatory documents for Z transactions.
- Proficiency in debugging and reading ABAP code, preparing loaders using LSMW, working with tables in SE16N, and creating reports in SQ01 using ABAP code and SQL queries.
- Supported e-store functionality and API integration.
- Designed and implemented pricing procedure
- Coordinated between sales and ABAP developers by providing technical specifications and guidelines for development tasks.

SAP Specialist

Bezant 📅 06/2015 - 06/2018

- Supported and trained users in FI, MM, and SD modules.
- Utilized skills in debugging, preparing instructions for users, working with tables in SE16N, and organizing data transfer between SAP and other enterprise management systems.
- Played an active role in SAP implementation and data migration.
- Tested new reports and programs in SAP.
- Additionally, developed macros for data processing in Excel, contributing to multiple projects such as order processing, invoice handling, and report generation.
- Optimized processing speed by 60% through the development and implementation of these macroses.

Key Account Manager

Bezant 📅 03/2007 - 06/2015

- Sales support and analysis professional with experience in working with key clients such as Castorama, Lenta, and Real.
- Conducted detailed market analysis and customer behavior research, providing valuable insights and contributing to strategic decision-making.
