Summary

I am a SAP ERP specialist and full-stack developer with 8 years of experience in SAP ERP support. My expertise lies in providing comprehensive support and troubleshooting solutions for SAP ERP systems. My portfolio, which can be found at https://chikitonik.github.io, showcases my work and projects.

Languages:
- English: Upper-Intermediate
- Hebrew: Alef+
- Russian: Native

I am a passionate programmer with experience in JavaScript, Python, ABAP, and VBA. I enjoy working with these languages to develop innovative solutions and optimize processes. In addition to my technical skills, I am a dedicated and disciplined professional with a strong analytical mindset and a sense of responsibility. I am non-confrontational, responsive, and punctual, making me a reliable team member. I hold a driver's license and have a range of interests outside of work, including sports and DIY activities.
